

Uses

- For a high build re- and new lacquering, to seal a repair.
- To be used on wood, plastic and metal surfaces.
- The additive 'ProSilicone' ensures a flawless lacquer creation.
- Recommended for both interior and exterior use.

Characteristics

- Manufactured on acrylic base.
- A transparent lacquer.
- Free from silicone.
- Gloss levels: deep matt 3-4, matt 10-13, silk matt 19-21, silk gloss 35-40, gloss 55-65, high gloss >75.
- Lightfast and weather resistant.
- Limited PVC-resistance (door and window gaskets).
- Good resistance and adhesion properties.

Application

Shake can well before use and briefly spray valve free. Check compatibility and adhesion on an inconspicuous area first. Spray distance approx. 30 cm. Surface has to be clean and free from grease. If necessary, make a pre-treatment (sand lightly and remove sanding residues). Spray on a wet coat of lacquer.

When sealing a repair with touch-up colours these will turn 'brighter' for a short while – as soon as lacquer has dried the original colour shade will return.

In case of vertical surfaces several thin coats are best. Allow lacquer to dry for approx. 20 minutes before recoating.

Specifications
Drying periods (at 20°C RT)

Dust-dry:	after approx. 15-20 minutes.
Touch-dry:	after approx. 30 minutes.
Lightfastness:	good up to very good.
Weather resistance:	good up to very good.
Coverage:	approx. 2 m ² per 400 ml (single application).
Shelf life:	at least 2 years (stored upright at room temperature, in original unopened container)
